What's New??

PowerFAIDS UPDATE

CollegeBoard
inspiring minds™

PF 17.0 Release - Late October 2011

- Supports PROFILE load and post and Institutional Methodology (IM) need analysis for the 2012-13 year

- Supports Parameter Roll Forward (Parm Roll) and Student Migration

- Supports load of the FDSLP Rebuild File for 11-12 (CODRBF)

- We have made two processing changes to enable users to maintain data cleanliness:

  - ✓ First, we will lock a POE's attributes once awards are made to students with that POE assigned to their records.

  - ✓ Second, we will lock a Fund's attributes once awards are made from that fund.

- There will be corresponding Net Partner and Web Client releases

PF 17.1 Release - Late January 2012

- At this time we are still waiting for the 2012-2013 SAR Comment Codes and Text document from ED to complete our requirements preparation (which has to happen before we can code and test). The delay in receiving this document affects our release date.

- 17.1 supports ISIR load and post and FM need analysis for the 2012-13 year

- There will be corresponding Net Partner and Web Client releases

PF 17.2 and beyond

- Most likely will have a 17.2 release in March, 2012 to update PF to use the upcoming COD 3.0E schema. The March release will update the 11-12 COD process to use the new schema.

- Follow up with a May 2012 release (17.3) to enable COD reporting, via the 3.0E schema, for the 2012-13 academic year.

- Anticipating a 17.4 release in August, 2012 to wrap up the 17.x cycle.
