

BORN TO DO AID

DL's up and running
But COD's not humming
Thanks to you Obama
For fixing student aid

Directors gotta make it happen
With staff all over the place
Fire up the brand new software
Don't clog up cyberspace

Love verification
Takes up too much time
Our staffs are trying
But they must avoid audit crimes

Directors gotta make it happen
With staff all over the place
Fire up the brand new software
Don't clog up cyberspace.

Oh yes, we're underpaid
(but) we were born
Born to do aid
We must fund the fees
So they can take P.E.

Refund checks are coming
Money for a party
Get your cell phone upgrade
Or another new tattoo

Directors gotta make it happen
With staff all over the place
Fire up the brand new software
Don't clog up cyberspace.

Like the people at DE
We were born
Born not to flee
We can drink and sigh
Knowing aid never dies

Born to do aid
Born to do aid
