Pennsylvania's Challenges

A declining high school population with greater racial, ethnic, income, and geographic diversity

Postsecondary institutions built for enrolling a high school population that is in decline

A changing economy increasingly dependent on individuals with postsecondary credentials

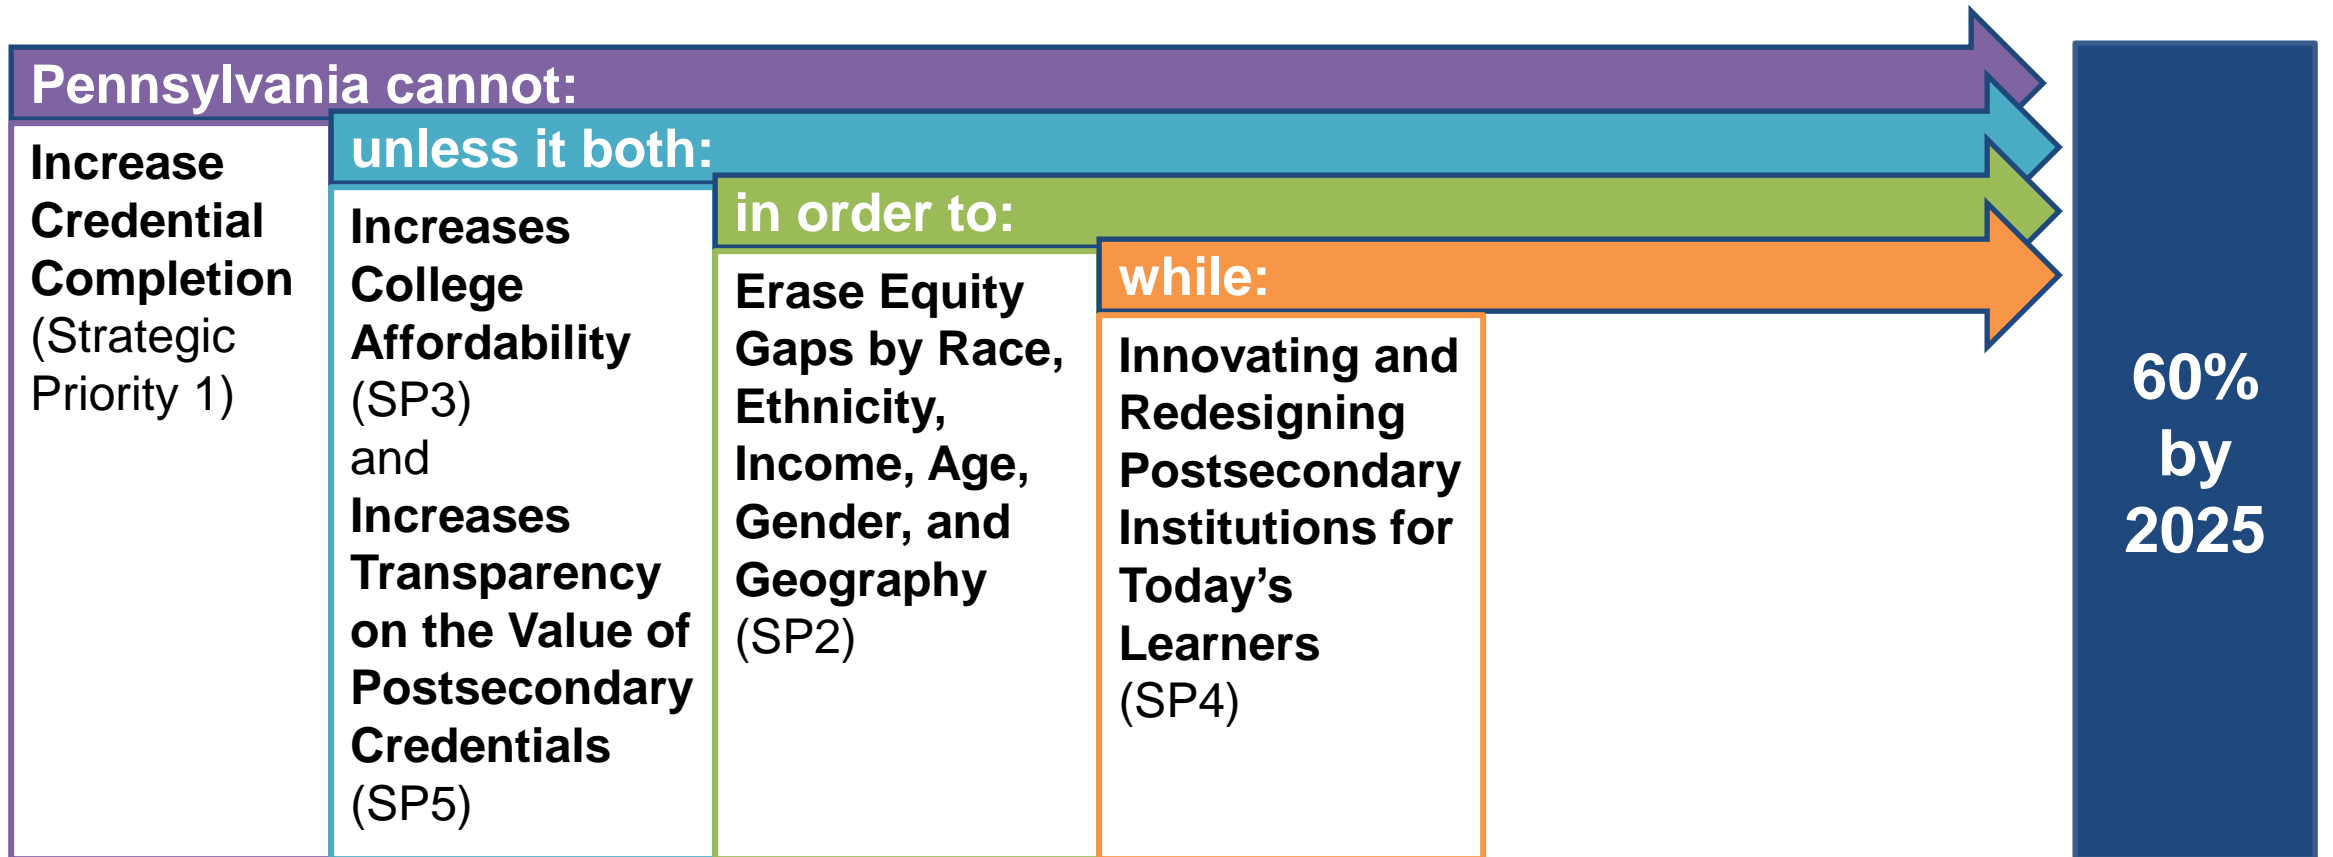

▶ Pennsylvania's Postsecondary Attainment Goal

Goal:

60 percent of the population ages 25-64 will hold a **postsecondary degree or industry recognized credential** by 2025, with a particular focus on **closing attainment gaps** for historically underrepresented populations.

Acknowledging All Our Social Identities

Which of these aspects of your social identity would you be willing to give up?

When students with marginalized identities perceive schools and classrooms as unwelcoming, they tend to conclude that “people like me do not belong here.”
